Installing the Litter-Robot 4 Fence

The Litter-Robot 4 Fence snaps onto the bezel at the globe entrance and acts as a barrier to contain kicked-up litter.

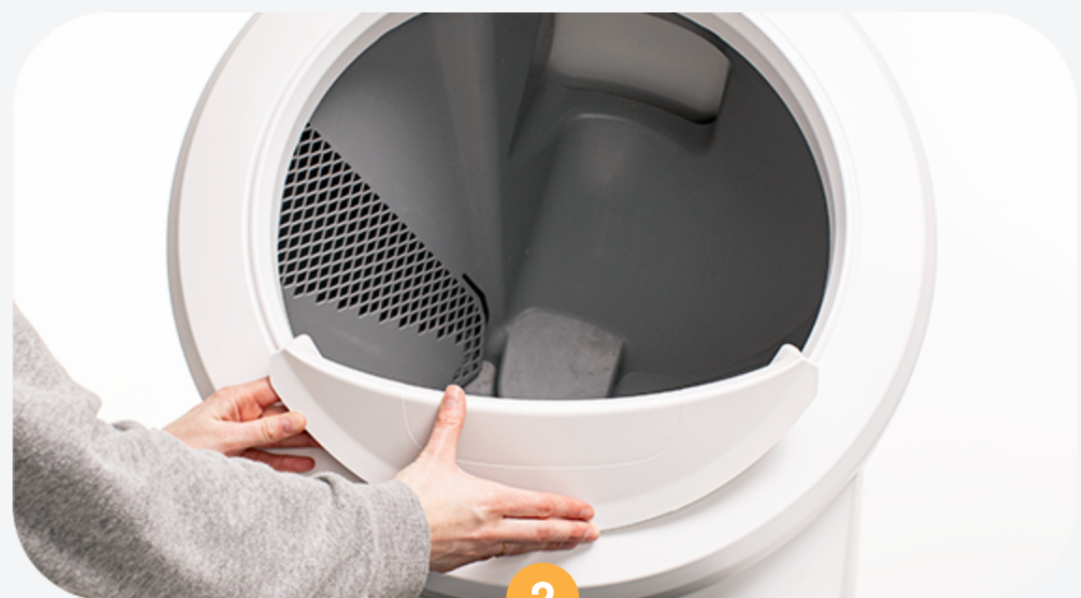

How to install

1

✓ Hold the fence upright inside the globe.

2

✓ Tilt the top of the fence toward you to align the front of the fence with the bezel.

3

✓ Gently press down on the back of the fence to snap it onto the bezel. Make sure the fence is level.

4

✓ Press the Reset button ⊗ to zero the weight sensors.
